

Curriculum Vitae

Cristian Bahrim
Professor of Physics (since September 2015)
Department of Physics, Lamar University
4400 M.L.King Pkwy., Beaumont, Texas 77710-10046
1-409-880-8290
cristian.bahrim@lamar.edu

EDUCATION

- | | |
|--|--------------------|
| University of Paris, Orsay, France - Ph.D. in Physics Dissertation: "Quantum treatment of intermultiplet transitions during $\text{Ne}^*(2p^5 3p) + \text{He}$ collisions at thermal energy. Polarization effects, interpretation of experiments." Honors: Dissertation passed with the Distinction: " <i>Congratulations of the jury</i> " | 1992 – 1997 |
| University of Bucharest - M.A. in Physics Thesis: "Laser produced-plasma on Aluminum targets using radiation from a CO_2 laser" | 1991 |
| University of Bucharest - B.A. in Physics Areas of Concentration: Atomic, Molecular, Optical, and Laser Physics | 1986 – 1991 |

ACADEMIC AWARDS/RECOGNITIONS

- | | |
|---|--------------------|
| • French Government Fellowship, University of Paris, Orsay, France | 1992 – 1997 |
| • Postdoctoral Fellowship, J.R. McDonald Lab., Kansas State University | 1998 – 2001 |
| • Three Outstanding McNair Mentor Awards at Lamar University | 2005 – 2006 |
| • Faculty UG Mentor Award at Lamar (2015). | |

TEACHING EXPERIENCE

- | | |
|---|-----------------------|
| Years teaching at college level – 20 years (K-State and Lamar U.) | 1998 – present |
| Years teaching at Lamar University – 16 years. | 2001 – present |
| Courses taught while at Lamar: | |
| <u>Undergraduate:</u> College Physics, University Physics, Modern Physics, Optics, and several Special Topics (i.e Quantum Optics, Advanced Photonics, Electric Circuits, and Advanced Spectroscopy). | |
| <u>Graduate Level:</u> Modern Optics, Experiments in Modern Optics, Quantum Optics, Master Thesis, and several Ph.D. level courses | |

- | | |
|--|-----------------------|
| Professor, Department of Physics, Lamar University <i>with joint-appointment in the Electrical Engineering Department</i> [Teaching undergraduate, graduate, and doctoral courses] | 2015 – present |
| Associate Professor, Department of Physics, Lamar University <i>with joint-appointment in the Electrical Engineering Department</i> [Teaching undergraduate, graduate, and doctoral courses; Developed lab activities (including writing two lab manuals for College Physics 2 and University Physics 2 courses). Leading research at UG, graduate and Ph.D. levels. Offering honors courses for University Physics and honors contracts for Modern Physics and Optics courses.] | 2010 – 2015 |

| | |
|---|-------------------------|
| Associate Professor, Department of Chemistry and Physics, Lamar University <i>with joint-appointment in the Electrical Engineering Department</i> [Development of several courses, such as Modern Physics, University Physics, College Physics, Optics, and several special topics, such as Advanced Photonics, Advanced Spectroscopy, Quantum Optics, as well as general laboratory activities for Physics Program]. | 2008 – 2010 |
| Assistant Professor, Department of Chemistry and Physics, Lamar University <i>with joint-appointment in the Electrical Engineering Department</i> [I created from scratch a laboratory facility for the Optics course; Leading honors thesis (Joey Hunt).] | 2005 – 2008 |
| Visiting Assistant Professor, Department of Chemistry and Physics, Lamar U. [Development of courses and labs in physics.] | Fall 2002 – 2004 |
| Adjunct Instructor, Department of Chemistry and Physics, Lamar U. [Teaching physics labs and one course Modern Physics.] | 2001-Aug. 2002 |
| Teaching Assistant in the Department of Physics at Kansas State University - Teaching recitations at the University Physics and College Physics levels. | 1999 – 2001 |
| Physics Instructor at Kansas State University - teaching recitations | 1998 |

Academic Administrative & Related Higher Education Experience

| | |
|--|--------------------|
| Postdoctoral Research Associate, J.R. McDonald Lab., Department of Physics, Kansas State University Research assistant on a Department of Energy sponsored project titled "Electron scattering on alkali-atoms. Photo-detachment of negative ions." | 1999 – 2001 |
| Institute of Atomic Physics, Bucharest-Magurele, Romania - Department of Lasers, Group of Atomic Collisions and Interactions Research assistant with responsibilities in writing grant proposals, providing administrative support for our research group, supervise students, schedule and budget responsibility. | 1991 – 1998 |

Sponsored grants:

| | |
|--|-----------------------|
| ➤ Co-PI along with Drs. Peggy Doerschuk P., Jennifer Daniel, Christopher Martin, and Joe Kruger, on the NSF - STEP grant (DUE 0757057) entitled "STudents Advancing through Involvement in Research Student Talent Expansion Program (STAIRSTEP)" (\$1,000,000). Sustained by Lamar University after September 2014 (\$100,000 per year). | 2009 – present |
| ➤ 2015 – 2017 Grant Program of the Center for Advances in Water and Air Quality (CAWAQ) – Co-PI with Drs. Tracy Benson and P Bernazzani on the project titled "Large Volume Carbon Dioxide Conversions Using Functionalized Visible Light Activated Photocatalytic Materials and Photo-Reactor Design" (\$25,000). | 2016 – 2017 |
| ➤ ExxonMobil grant – Co-PI with Drs. P. Doerschuk and J. Daniel) in support of undergraduate research (\$28,000). | 2015 – 2016 |
| ➤ Two research enhancement grants at Lamar University (total \$8500). | 2005, 2007 |
| ➤ Two SPS Chapter Research Awards of \$2,000 each. | 2013, 2016 |
| ➤ 2017 White Marsh Award of \$500. | |

Sponsorship of student organizations:

- Advisor of the Society of Physics Students (since 2010) and
- Sigma Pi Sigma – Physics Honors Society (re-activated in 2014 after 17 years).

Contributions in teaching and instruction at Lamar University:

- Develop a teaching website for instructional material;
- Co-author of two lab manuals used for laboratory instruction at Lamar U. (which have generated more than \$30,000 for the Lamar Foundation – The Physics Excellence account);
- Developed two graduate courses: a theoretical course titled “Modern Optics” and an experimental-based course titled “Experiments in Modern Optics”;
- Supervision of undergraduate and graduate research projects, including for master and doctoral degrees.

University Service while at Lamar:

- Chair of the Physics Department (2013 – 02/2014);
- Faculty senator (since 2011-2014);
- Chair of the Faculty Issues Committee of the Faculty Senate (2014);
- Member of the Tenure and Promotion Committees (2008-2012; 2017);
- Lamar Mirabeau Scholar Committee (2006-2015);
- Member in the Advisory Board of the EE department (2005-present) and participated to the ABET accreditation (2006 and 2013);
- Member of Admissions Committee (2011);
- Merit Award and University Professor Committee (2010-2011, 2013 and 2017);
- Member of the Distinguished Faculty Lecturer Committee (2012-2013);
- Chair of several search committees for hiring one tenure-track faculty (2009) and two instructors (2009 and 2012), administrative associate (2013, 2015), and Chair of Physics Department (2015-2016);
- Search Committee member for hiring in the Physics Department one instructor in 2008, two administrative associates 2013, 2014, and one lab manager 2014; other departments: EE (2014-2016); Education and Human Development (2014).
- Faculty Mentor under the SMART program (2014-2016)

Selected Academic Achievements with UG Students at Lamar:

- **Mentor of the Society of Physics Students (SPS) at Lamar –** Recognitions: Distinguished SPS Chapter Award (2014-2015), Outstanding SPS Chapter Award (2013-2014, 2015-2016).
- **2016 Undergraduate Research Award from the Society of Physics Students** for the project titled “Finding the shape of glowing objects from polarimetric measurements” (<https://www.spsnational.org/awards/chapter-research/recipients/2016>). Project led by Keeley Townley-Smith.
- **2013 Sigma Pi Sigma Research Award from the Society of Physics Students** for the project titled “Solar and stellar measurements using

accurate spectroscopic techniques". Project led by Sara-jeanne Vogler.

- **McNair mentor** for seven scholars: Josh Trevino (2003), Joseph Young (2006), Joey Hunt (2006), Richard Wooten (2008), Robert Nick Lanning (2011), Carlos Caballero (2015) and Keeley Townley-Smith (2015);
- **Mentor of the only two Goldwater Scholars at Lamar:** Joseph Young (2006) and Keeley Townley-Smith (2014);
- Invited with Joey Hunt at **Posters on the Capitol Hill Event** in Washington D.C. to present a paper in front of policy makers (2006);
- Selected to represent Lamar at the **UG Research Day at Capitol in Austin** 2013 (Sara-jeanne Vogler) and 2015 (Keeley Townley-Smith);
- Mentor of several EE students. Two students won the 1st place in 2006 (Joseph Young) and 2010 (Garret LaBove) in the Region 5 IEEE Competition.

SPS Advisor for Lamar University

Two Outstanding Chapter Awards for

2014 <https://www.spsnational.org/awards/outstanding-chapter/recipients/2014> and

2016 <https://www.spsnational.org/awards/outstanding-chapter/recipients/2016>

Supervision of Graduate Students (studies completed) at Lamar:

- Co-supervisor (with Dr. Rafi Tadmor, from Chem E) of one Ph.D. candidate in Chem. Engr., Mr. Ken Pepper. Ph.D. degree awarded in December 2015;
- Co-advisor of the Ph.D. candidate Hiraku Matsukuma from Kyoto University, Japan (supervisor Prof. Masahiro Hasuo). Ph.D. degree awarded in March 2013;
- Master thesis supervisor for Don Duplan (graduation August 2013), Md. Mozammal Raju (graduation May 2014), and Md. Kairuzzaman (graduation December 2014) from the Phillip M. Drayer Department of Electrical Engineering.
- I served on several MS and doctoral thesis committees at Lamar and outside United States (including one at the present moment from the National Institute of Laser Enhanced Sciences (NILES) of the Cairo University, Egypt);

PROFESIONAL DEVELOPMENT:

Membership/Board Affiliation:

- Member of the *American Physical Society* (since 1998);
- Science Faculty collaborative of the *College Career Readiness Initiative – CCRI* (since 2010);
- *Beta Xi Chapter of Phi Beta Delta, Honor Society for International Scholars* (since 2013);
- *American Association for the Advancement of Science (AAAS)* (since 2001);
- *Texas Section of the American Association of Physics Teachers* (2014-2016) – four-year college representative officer.

Chair of the Conference Joint Spring 2016 Meeting of Texas Sections on the American Physical Society, American Association of Physics Teachers, and Zone 13 of SPS – organized at Lamar University on March 31 – April 2, 2016

Reviewer for many years to peer-reviewed journals such as the Journal of Physics of the European Institute of Physics; the American Journal of Physics; the Physical Letters A; the Chinese Optics Letters; the Indian Journal of Physics. Also, I was invited to serve as reviewer for several peer-reviewed international conferences, such as the International Conference on Biomedical Engineering and Biotechnology (iCBEB), the International Conference on Consumer Electronics (CECNet), the Conference on Electronics and Circuits (ECC), the Frontiers in Education (FIE), and several other IEEE conferences.

Professional recognitions:

- Faculty UG Mentor Award from OUR at Lamar (2015).
- Marquis® “*Who’s Who in Science and Engineering*” (2002-03, 2006-09, 2011-12);
- Marquis® “*Who’s Who in Education*” (2006-2008);
- Marquis® “*Who’s Who in the World*” (2006-2017);
- Marquis® “*Who’s Who in America*” (2001-2017).

The Most Recent Invited Talks given at various meetings/venues:

- **BIT's 5th Annual Conference of AnalytiX-2017** held in Fukuoka, Japan (March 24, 2017) - invited speaker and chair session. Talk “Computational Molecular Vibrational Spectroscopy of Light Rare Gases: A New IR Excimer Laser”.
 - **Kyoto University**, March 27, 2017 – invited seminar on “Slowing down light using EIT and “locking” light on a dielectric surface: Building Qubits with Polarized Light”
 - **2016 ENM (Energy, Materials, and Nanotechnology) Conference – Meeting on Quantum Communication and Quantum Imaging** held in Berlin, Germany (Aug, 23-26, 2016) - invited speaker and chair session. Talk “Locking a Probe Laser Beam on a Dielectric Surface through Radiation Coupling: A New Photonic Switching Mechanism”.
 - **6th Southeast Symposium on Contemporary Engineering Topics (SSCET)** held in New Orleans (Sep. 11, 2015): Talk “Coupling two lasers on a dielectric surface: a new way to manipulate light in optoelectronic circuits”.
 - **2014 Laser and Optoelectronic Conference (LOC 2014)** organized in Beijing, China (Nov. 2014) – invited speaker, chair session and member of the Technical Committee Program. Talk “A New Optoelectronic Switch: The Dielectric of a Capacitor Illuminated with a Laser Radiation”.
 - **5th Southeast Symposium on Contemporary Engineering Topics (SSCET)** held in New Orleans (Sep. 19, 2014): Talk “Using the dielectric of a capacitor irradiated with a diode laser as a new optoelectronic switch”.
 - **BIT's 3rd Annual Conference and EXPO AnalytiX-2014**, held in Dalian China, April 25-28, 2014. Talk “Trapping HeNe* excimers on Vibrational States Short Laser Pulses”.
 - **New Horizons in STEM Education Conference** held in San Antonio on Mar. 27-28, 2014. Talk “Hands-on experience: A better way to teach physics and attract majors”.
-

- **43rd Winter Colloquium on the Physics of Quantum Electronics**, held at Snowbird, Utah, USA on January 6-10, 2013. Talk "Simultaneously slowing down two circularly polarized optical fields using EIT in a four level atomic system in the W scheme".
- **2013 STEP NSF Grantee Meeting** – Washington D.C., March 6-7. Presenter at the workshop session "Recruitment and Retention in Foundational Science Courses".

SIGNIFICANT PROFESSIONAL PUBLICATIONS

PEER-REVIEWED JOURNAL ARTICLES between 2001 and 2016:

Contributions to other conferences/workshops while at Lamar:

36. As Faculty Collaborative for the College Career Readiness Initiative (CCRI) in Texas, between 2010 and 2014 I have participated to 7 workshops giving talks and leading panels.

37. 2013 STEP NSF Grantee Meeting – Washington D.C., March 6-7, 2013. Along with two colleagues from other universities, we led the panel "*Recruitment and Retention in Foundational Science Courses*".

38. The 8th EU-Japan Joint Symposium on Plasma Processing (JSPP 2012) - Osaka University, Jan. 16-18, 2012: "Measurement on Perturber Dependence of Disalignment of Excited Neon and Argon Atoms due to Rare-gas Atom Collisions" by Hiraku Matsukuma, Cristian Bahrim, Taiichi Shikama, and Masahiro Hasuo (please visit <http://www.camt.eng.osaka-u.ac.jp/EU-JAPAN/>)

39. 5th Asian International Seminar on Atomic and Molecular Physics: AISAMP5 – Kansai, Japan (2012) "Disalignment rate coefficient of neon excited atoms due to helium atom collisions at low T" by Seo M., Shimamura T., Furutani T., Hasuo M., Bahrim C., and Fujimoto T.

40. Gordon Research Conference on Atomic Physics - Tilton, New Hampshire, 2007. "Depolarization of Ne*(2p_i [J=1]) atoms induced by collisions with He at temperatures from 10 Kelvin to 2,000 Kelvin: Comparison between theory and experiment", by Bahrim C., and Khadilkar V.

41. 2nd Conference on the Elementary Processes in Atomic Systems - Gdansk, Poland, 2002. "Near-threshold photo-detachment of heavy alkali-metal anions", by Fabrikant I.I., Bahrim C., Khuskivadze A.A. and Thumm U.

42. Fano Memorial Symposium, ITAMP, Cambridge - Massachusetts, 2002. "Near-threshold photodetachment of heavy alkali-metal anions", by Fabrikant I.I., Bahrim C., Khuskivadze A.A. and Thumm U., Fabrikant I.I., Bahrim C., Khuskivadze A.A. and Thumm U.

Selected conference presentations with students (2001 – 2017):

43. South Central Conference for Undergraduate Women in Physics, SCUWiP2017 – at the Rice University with Suzanne Wheeler (physics/MA major) "*Finding the shape of Glowing Openings by Filtering Light with Polarizers*".

44. 51th Annual Conference of the National Collegiate Honors Council, in Seattle, Nov. 2016. "*Fundamentals and Applications of Magnetic Levitation: Holding Technology against Gravity*" with Rachit Yadav (ChemE major).

45. 2016 Quadrennial Physics Congress, San Francisco, CA, with Wheeler S. (physics/MA major), Townley-Smith K. (physics/EE major), Nurul Azam (grad EE), Escamilla G. (physics/EE major), Zakary Noel (physics major), "Finding the Shape of a Glowing Object from Polarization Measurements".

46. 2016 Quadrennial Physics Congress, San Francisco, CA, with Pickren J. (physics/EE major) "Analysis of Atomic Spectra in Medicines and Flare Towers with Flame Spectroscopy".

47. 2016 Quadrennial Physics Congress, San Francisco, CA, with Caballero C. (physics/ME major) "Active Flow Control and other Efficiency Maximizing Technologies in Aerospace Applications"

48. 50th Annual Conference of the National Collegiate Honors Council, in Chicago, Nov. 2015. "*Baryon-genesis*" with Nikolas Nikoloutsos (physics/EE major).

49. 2nd Annual STEM Conference 2014, Lamar University with Keeley Townley-Smith (physics/EE major) and Gillian Nave (Researcher at NIST) "Learning about the composition of stars and atomic structure through spectroscopy". This UG conference is organized by the Office of UG Research.

-
- 50. 117th Annual Meeting of the Texas Academy of Sciences**, Galveston (March 2014) with Vogler S-J. (physics/MA major) and Townley-Smith K. (physics/EE major) "Analysis of Lorenzian peaks in atomic absorption spectra and shapes of glowing objects from the polarization of light emitted".
- 51. The Year of the Solar System. 2014 Undergraduate Research Conference, The Woodlands, TX** (March 2014) with Sara-Jeanne Vogler (physics/MA major) "Don't Get Burned! Protection from ICME Related SEP Events in Interplanetary Space" This UG conference is sponsored by the NASA Science Mission Directorate and Lunar and Planetary Institute.
- 52. Undergraduate Research Expo 2014!** (April 2014) with Keeley-Townley Smith (physics/EE major) "Emission and Absorption Spectroscopy and Polarimetry of Glowing Objects in Thermal Equilibrium". This UG conference is organized by the Office of UG Research.
- 53. Undergraduate Research Expo 2014!** (April 2014) with Sara-Jeanne Vogler (physics/MA major) "Detection, Warning, and Safety Procedures for ICME Related SEPs in Interplanetary Space". This UG conference is organized by the Office of UG Research.
- 54. South Central Conference for Undergraduate Women in Physics, SCUWiP2013**, Jan 2013 – at the University of Texas at Austin with Sara-Jeanne Vogler (physics/MA major) "*Analysis of atomic emission spectra: a refined way to understand the photon concept*" Sara-Jeanne Vogler and Cristian Bahrim.
- 55. 48th Annual Conference of the National Collegiate Honors Council**, in New Orleans, LA, Nov. 6-10, 2013. "*Fuel cells and Electric Motors*" (Poster 166-7) with Jordan King (ChemE major) and Hoang "David" Tsan (ME major).
- 56. 2013 Texas STEM Conference, Lamar University** (Oct. 5, 2013) with Nick Lanning (physics graduate at LSU) "Electron Diffraction by Graphite".
- 57. 2013 Texas STEM Conference, Lamar** (Oct. 5, 2013) with Sara-jeanne Vogler (physics/MA major) and Keeley-Townley Smith (physics/EE major) "Understanding and manipulating Photons".
- 58. Texas Undergraduate Research Day at the Capitol in Austin** (April 2013) with Sara-jeanne Vogler (physics/MA major). Paper presented "Analysis of Atomic Emission Spectra with Applications in the Study of our Universe". Poster 10. This conference is organized by the Council of Public University Presidents and Chancellors.
- 59. Quadrennial Physics Congress**, Orlando, FL (Nov. 2012) with Neal B. (physics major), Lanning R.N. (physics/MA major), Castro J. (physics/EE major), Jacob J. (physics/ME major) "The Analysis of Crystals with Electronic Waves".
- 60. 115th Annual Meeting of the Texas Academy of Sciences**, Sull Ross University Alpine (March 2012) with Ware W. (physics/EE major), Lanning N. (physics/MA major), Wigginton S. (physics/EE major), Lee Ch. (physics/EE major) "Analysis of electron diffraction in crystallography".
- 61. 114th Annual Meeting of the Texas Academy of Sciences**, St. Edward's University Austin (March 2011) with Ware W. (physics/EE major), Lanning N. (physics/MA major), St. John B. (physics/EE major) "Distribution of energy within interference patterns".
- 62. 113th Annual Meeting of the Texas Academy of Science**, Tarleton State University, Stephenville, TX (March 2010) with Lanning N. (physics/MA major), Bullock W. (physics/EE major), Lee C. (physics/EE major), Holman R. (physics/MA major) "Diffraction of electronic wave packets by crystals".
- 63. 2009 Sigma Xi International Conference for Undergraduate Research**, Nov.12-15, Houston, TX, with Robert Nicholas Lanning (physics/MA major), Joel Toutloff (physics major) and Christopher Lee (physics/EE major). We presented the poster "Interference and diffraction of light and matter waves".
- 64. 8th McNair Research Conference in University of Maryland** (March 2007) with **Richard Wooten** (physics major) "Light-matter interaction".
- 65. 2006 Posters on the Hill** organized by the **Council of Undergraduate Research** on the Capitol Hill, Washington D.C., (2006), Books of Abstracts, pp. 30 with Hunt J.F (physics/MA major) "In search of a new molecule formed by rare gas atoms".
- 66. 109th Conference of Texas Academy of Science** (Beaumont, Texas, 2006), pp. CJ89 with Young J.
-

(physics/EE major) "Spectroscopic analysis of atomic emission spectra".

- 67. 109th Conference of Texas Academy of Science** (Beaumont, Texas, 2006), pp. CJ86 with Hunt J.F. (physics/MA major) "Quantum phenomena in atomic collisions between Neon and Helium atoms".
- 68. 109th Conference of Texas Academy of Science** (Beaumont, Texas, 2006), pp. CJ87 with Seaman J., "Stellar Evolution: the origin and fate of the stars and our Universe".
- 69. 109th Conference of Texas Academy of Science** (Beaumont, Texas, 2006), pp. P57 with Khadilkar V. (CS graduate) "Disalignment and disorientation of Neon atoms induced by He-Ne collisions".

Conferences presentations prior to Lamar (1991-2001):

- (1) **XXII ICPEAC, Santa Fe, New Mexico, 2001** - "Feshbach resonances and virtual states in electron scattering by Rb, Cs, and Fr atoms at low-energies", Bahrim C., Thumm U., and Fabrikant I.I., Contributed Papers, page 133.
- (2) **DAMOP 2000, Storrs, Connecticut, 2000.**
* "Low-lying 3P_o shape resonance of Rb, Cs and Fr ions in electron scattering and photodetachment", Bahrim C., and Thumm U., published in the **Bulletin of the American Physical Society**, vol. 45, no.3, page 68.
* "Momentum-transfer, differential and spin-exchange cross sections in the elastic scattering of low-energy electrons by heavy alkali-metal atoms", Bahrim C., Thumm U. and Fabrikant I.I., published in the **Bulletin of the American Physical Society**, vol. 45, no.3, page 68.
- (3) **Energierreiche Atomare Stosse, EAS-21, Germany, 2000** - "Near-threshold spectra of heavy-alkali-metal negative ions", Bahrim C. and Thumm U., Proceedings, page 159.
- (4) **Gaseous Electronics Conference, Old Dominion, Norfolk, Virginia, 1999** - "Low-lying resonances in Rb⁻, Cs⁻ and Fr⁻", Bahrim C., Thumm U. and Fabrikant I.I.
- (5) **APS 1999 Centennial Meeting, Atlanta, Georgia, 1999** - "Resonances in $e^- +$ heavy alkali-metal-atom collisions", Bahrim C. and Thumm U., published in the **Bulletin of the American Physical Society**, vol. 44, no.1, Part I, page 136.
- (6) **Atomic Physics Conference, Plymouth, New Hampshire, 1999** - "Negative ion resonances in cross sections for slow electron-heavy alkali atoms (Rb, Cs and Fr) scattering", Thumm U. and Bahrim C., Proceedings.
- (7) **XX ICPEAC, Vienna, Austria, 1997** –
* "Longitudinal alignment transfer between $2p_4$ and $2p_5$ atomic states of $Ne^*(2p^53p)$ for $Ne^* - He$ cell experiments", Kucal H., Bahrim C., Hennecart D., and Masnou-Seeuws F., Contributed Papers, FR 041.
* "Quantum calculations for collisions of $Ne^*(2p^53p)$ with He: intramultiplet mixing with polarization effects and alignment relaxation", Bahrim C., Kucal H., and Masnou-Seeuws F., Contributed Papers, TU 166.
- (8) **29th Conference EGAS, Berlin, Germany, 1997** - "Quantal calculations for $Ne^* + He$ collisions: polarized cross-sections and alignment transfer", Bahrim C., Kucal H. and Masnou-Seeuws F., Proceedings.
- (9) **4^{eme} Colloque sur la Dynamique des Ions, des Atomes et des Molecules, Bourges, France, 1996** - "Traitement quantique des transitions intermultiplet pour les collisions $Ne(2p^53p) + He$ a des energies thermiques et superthermiques", Bahrim C., Kucal H. and Masnou-Seeuws F., Proceedings.
- (10) **4th Conference "Alain Boussy", Orsay, France, 1996** - "Collision $Ne^* + He$ (quantum treatment)", Bahrim C., Kucal H. and Masnou-Seeuws F., Proceedings.
- (11) **Conference "Physique en Herbe", Saclay, France, 1993** - "Population and Alignment Transfer between the Levels of the $2p^53p$ Ne Configuration in Collision with Rare Gases", Bahrim C., Masnou-Seeuws F., Kucal H. and Dulieu O., Proceedings.
- (12) **ICPP, Innsbruck, Austria, 1992** - " CO_2 -TE Laser Produced Cadmium Plasma in Vacuum: Experiment and Kinetics", Apostol I., Bahrim B., Bahrim C. and Vasilescu C., Contributed Papers, Part III pp. 2049.
- (13) **Conference "Physique en Herbe", Marseille, France, 1992** - "Elementary Processes in Laser
-
